Why he's the best: Ong, owner of Mane Attraction, says your ideal look depends on how well your hair is cut, not how talented you are with styling. Ong has expert cutting skills for creating flattering hairstyles that require little to no maintenance. He analyzes your bone and body structure, plus hair density, texture and growth pattern, to determine the best cut for you.

TIP: Condition a lot during the summer and don't go longer than eight weeks between cuts.
